Panelists from all islands responded to questions pertaining to specific maternal and child health issues.

Prenatal Care

- Maui
 - Poor access due to Maui Memorial to Kaiser Hospital switch.
 - Lack of OBs across the island.
- West Hawaii
 - Gap of information from OBs and their patients.
 - Lack of prenatal specific appointments.

Safe Sleep

- Oahu
 - Focus encouraging room sharing, not bed sharing.
 - Transportation barrier preventing mothers from attending class.
 - Approaching co-sleeping as; if you are going to co-sleep, how can you make it safest?
 - Language in risk reduction of safe sleep needs to be more cohesive.
 - Too many restrictions for safe sleep, parents begin to disregard all together.
- Hilo
 - Hilo hospitals play a safe sleep DVD as part of discharge education.
- West Hawaii
 - Staff needs to be re-educated regarding safe sleep.
- Maui
 - Nurses and staff need to be educated on safe sleep, they will be most impactful towards postpartum mothers and families.

Breastfeeding

- Maui
 - Maui memorial doesn't do couplet care.
 - La Leche is a very strong network on the island.
- West Hawaii
 - Lactation specialists are not accessed often.
 - Nipple shields are causing problems with latching.
 - Huge drop off after 6 months breastfeeding.
 - No coordination of care after discharge for neighbor island help.
- Kauai
 - Breastfeeding consultations are expensive, families can't afford them.
 - WIC is providing a lot of breastfeeding support, even to moms not on WIC.
- Lanai
 - Mothers returning from delivering on Oahu can't find breastfeeding help/services.
- Oahu
 - Castle Hospital trains all nurses on safe sleep and breastfeeding.
 - WCCHC sends mothers in need to the nurse practitioner on staff to help with breastfeeding/pumping/latching.
 - WCCHC mothers are not reaching the 6-month exclusive breastfeeding recommendation; due to work and low milk production.
 - MCBH has a high increase in lip and tongue ties in babies.

Panel Presentations

- After lip & tongue tie procedure is performed, there is a delay in babies which prevent them from breastfeeding.

One Key Question / Reproductive Life Plans

- Hilo
 - BSN students took the question out to Chuukese women, and had a positive response.
 - Presentation with substance abuse patients was effective.
- Oahu
 - Patients are responding positively to the question, not offended.
 - Regarding asking minor patients, parental guardians seem to be stepping in and answering the question for the minor patient (not accurate answers).
 - Asking the question in high schools has been helpful and beneficial with starting the conversation.

Long-Active Reversible Contraceptives (LARC)

- Oahu
 - Insurance issues, providers won't cover LARC due to cost.
 - WCCHC has negative response from patients; they don't want something 'in them' and were deterred by stories from friends/family.
 - Immediate postpartum LARC covered by insurance.

Due to insufficient time these topics were saved to discuss at the next PAN meeting.

**Screening, Brief Intervention & Referral to Treatment (SBIRT)
Billing Issues & ICD-10**
